From the Heart of Our Visionary Leader

DR. L. R. YADAV

**B.Sc, BE, ME, PGDM,
MBA, PH.D.**

"Within the halls of Alard lies the canvas where your extraordinary story begins, destined to paint the world with brilliance and purpose."

Imagine a world where knowledge knows no boundaries, where learning transcends the confines of traditional classrooms, and where your passion is nurtured to bloom into greatness. This is the world I strive to create at Alard, where the right to education becomes a cherished birthright, and the right to employment becomes an empowering realization.

In the vibrant corridors of Alard, we bridge the gap between theory and practice, cultivating skills that transcend academia and flourish in the professional world. As you embark on this extraordinary journey with us, know that we are not simply imparting knowledge but igniting the flames of curiosity within you.

As Chairman, it is my unwavering commitment to walk alongside you, to inspire, to guide, and to witness the remarkable transformation that awaits you within these hallowed halls.

Welcome to Alard Group of Institutes, where the convergence of academia and the professional world awaits you, where your future takes flight, and where you become the architect of your own success story.

Embrace the energy of Pune, MH

Oxford of the East. Cultural capital of Maharashtra.
The fastest growing IT industry.

As you turn the page to the next chapter of your life, Pune's vibrant heartbeat calls out to you to explore its myriad delights.

Uncover the grandeur of the Rajiv Gandhi IT Park, the irresistible charm of Balewadi High Street, and a wide array of culinary delights accompanied by a thriving nightlife. In Pune, unforgettable experiences await at every turn.

Alard College of Engineering & Management

Step into a world of boundless possibilities as we empower you to conquer new horizons in your academic and professional pursuits.

Since its inception in 2009, the Alard College of Engineering & Management has been dedicated to nurturing aspiring minds and fostering a culture of excellence in technical education. With a vibrant ecosystem that blends industry-aligned knowledge and cutting-edge facilities, we provide the perfect launchpad for immersive learning, groundbreaking research, and unlimited growth.

DTE CHOICE CODE: 6325

admissions@alardinstitutes.com

Our programs

1 **B.E. in Computer Engineering**

4 years full time

&

M.E. in Computer Engineering

2 years full time

Unravel the mysteries of programming, networking, and software development, setting the stage for a dynamic career in the ever-evolving world of technology.

2 **B.E. in Artificial Intelligence & Machine Learning Engineering**

4 years full time

Harness the potential of advanced computing systems and explore the depths of neural networks and deep learning algorithms. From developing intelligent systems to solving complex real-world problems, this program enables you to be at the forefront of the AI revolution.

Our programs

3 **B.E. in Computer Science: UX & Design** *4 years full time*

Let your imagination take flight as you unleash the power of technology to craft seamless and captivating user interfaces. Our 4-year UX & Design program is your gateway to revolutionizing the way users interact with technology.

4 **B.E. in Electronics & Telecomm. Engineering** *4 years full time*

Explore the fascinating world of circuits, signals, and networks as you unravel the mysteries of electronic systems. From designing intricate communication networks to delving into the realms of wireless technology and digital signal processing, you'll gain the expertise to shape the future of connectivity.

5 **B.E. in Electrical Engineering** *4 years full time*

Prepare yourself to revolutionize the world with your electrifying ideas in the exciting fields of electricity, power, and innovation. Immerse yourself in a world of circuits, systems, and sustainable energy as you embark on a journey of discovery.

Our programs

6 **B.E. in Mechanical Engineering** *4 years full time*

&

M.E. in Mechanical Engineering *2 years full time*

Master the art of designing, building, and optimizing mechanical systems that drive the world forward. Unleash innovation with an arsenal of advanced equipment and tools at your disposal.

7 **B.E. in Civil Engineering** *4 years full time*

Join us on a journey where your imagination meets concrete and steel, and where your passion for building transforms cities into thriving habitats. Let your architectural visions take shape as you bring your blueprints to life and shape the future of urban landscapes.

Our programs

8. B.E. in Electronics Engineering (VLSI Design And Technology)

4 years full time

Step into the world of VLSI design and technology and be at the forefront of technological breakthroughs. Delve into the intricate domains of chip architecture, system-on-chip integration, and advanced digital design, opening doors to lucrative careers in the electronics industry.

9. B.E. in Electronics And Communication (Advanced Communication Technology)

4 years full time

Unveil a universe of wireless marvels, where you'll explore the frontiers of IoT, 5G, and beyond, arming yourself with the knowledge to engineer revolutionary communication solutions that transcend boundaries.

Our Prominent Recruiters

Alard Institute of Management Sciences

Welcome to the Alard Institute of Management Sciences, where innovation, excellence, and limitless possibilities converge. Transform into a holistic management leader who not only possesses business acumen but also demonstrates strong ethical values and a global perspective.

At our institute, we go beyond textbooks and theoretical knowledge, providing immersive learning experiences that blend real-world challenges, industry interactions, and cutting-edge research.

DTE CHOICE CODE: 6135

Our Programs

1 **Master of Business Administration** **MBA - Corporate World Program**

2 years full time

Discover a revolutionary master's program where business meets innovation, where leaders are born, and where the rules of success are rewritten. Offered at a basic as well as global level, our 2-year master's program combines the best of theory and practice, blending traditional business principles with the latest trends in technology, entrepreneurship, and sustainability.

With renowned faculty, industry partnerships, and immersive learning experiences, we prepare you to navigate the complexities of the business landscape with confidence and creativity.

Our Programs

Specialization Areas as per Savitribai Phule Pune University

Major Specializations

- Marketing Management (MKT)
- Human Resource Management (HRM)
- Financial Management (FIN)
- Operations & Supply Chain Management (OSCM)
- Business Analytics (BA)

Minor Specializations

- International Business Management (IB)
- Tourism & Hospitality Management (THM)
- Pharma & Health Care Management (PHCM)
- Rural & Agri Business Management (RABM)

Our Programs

Domain Specialization Certifications

(For MBA – Corporate World Program)

Value added Programs and Certification in MBA First Year (I & II Semester)

1. Data Science
2. Digital Marketing
3. Six Sigma
4. Corporate Leadership

Value added courses in MBA Second Year (1 course/certification as per each major specialization)

1. Supply Chain Management
2. Banking and Finance with Blockchain Technology
3. Salesforce.com/AWS
4. Advance Excel /SAP HR Certification

Employability Programs (300 + Hours)

- IT Skills Development Program (ITSDP)
- Inclusive Capability Development Program (ICDP)
- Corporate Connect Training Program (CCTP)
- Entrepreneurship Development Program (EDP)
- Psychometric and Personality Development Program (PPDP)
- Placement Readiness Program (PRP)
- Soft Skill Development Program (SSDP)
- Leadership Development Program (LDP)
- **Foreign trip for MBA (Corporate World Program only)**

Our Programs

2 Master of Computer Application (MCA)

2 years full time

In a world where information reigns supreme, computer engineers are the architects of tomorrow. Our aim with this transformative 2-year program is not just to produce exceptional professionals, but to foster an entrepreneurial mindset that sparks groundbreaking ideas and ventures.

Through immersive industry interactions and software consultancy, we bridge the gap between academia and real-world challenges, empowering our students to shape the digital frontier.

The MCA program allows you to:

- Apply computing fundamentals, specialized knowledge, and mathematics to abstract and conceptualize computing models for defined problems and requirements.
- Identify, research, and solve complex computing problems using principles from mathematics, computing sciences, and relevant disciplines.
- Design and evaluate solutions for intricate computing problems, considering public health, safety, cultural, societal, and environmental factors.
- Utilize research-based knowledge and methods to draw valid conclusions, including designing experiments, analyzing data, and synthesizing information.
- Employ modern computing tools, techniques, and resources to engage in complex computing activities, while understanding their limitations.

Our Prominent Recruiters

Alard College of Pharmacy

Unlock a world brimming with opportunities, where a career in pharmacy opens doors to a bright future. Alard College of Pharmacy stands tall as a beacon of excellence, passionately imparting top-notch pharmaceutical education. Established in 2006, this esteemed institution has been a catalyst in meeting the ever-growing global demand for skilled pharmacy professionals.

Through captivating industrial visits, enlightening guest lectures, and engaging pharmaceutical activities, we prioritize the seamless blend of industry and academia.

Our focus lies in nurturing compassionate pharmacists who can serve the community tirelessly, while our comprehensive education equips future leaders with the ability to tackle real-life challenges with precision and expertise gained through meticulous learning at our institute.

Our Programs

1 D.Pharmacy

2 years full time

Embark on a transformative two-year journey with a Diploma in Pharmacy as you explore the science of pharmacy and its diverse theories and principles. From Pharmaceutical Chemistry to Human Anatomy and Physiology, our comprehensive curriculum equips you for a promising professional future.

Areas covered:

- Pharmaceutics
- Human anatomy and physiology
- Pharmaceutical chemistry
- Pharmacognosy
- Hospital and clinical pharmacy
Pharmacology
- Community pharmacy and management
Social pharmacy
- Biochemistry and clinical pathology

2 B.Pharmacy

4 years full time

Delve into the depths of medicinal science, where we shape compassionate pharmacists equipped to make a lasting impact on society. Join our vibrant community of aspiring pharmacists and carve a career that leaves a profound impact on healthcare.

Areas covered:

- Pharmaceutics
- Human anatomy and physiology
- Pharmaceutical chemistry
- Pharmacognosy
- Pharmacology
- Pharmaceutical analysis
- Regulatory sciences and
Pharmaceutical jurisprudence

Our Programs

3 M.Pharmacy in Pharmaceutics

2 years full time

Delve into research areas such as conventional dosage forms, novel drug delivery systems, complexation, solubilization, and nanotechnology, and forge a path towards transformative advancements in the ever-evolving landscape of pharmaceutical sciences.

Areas covered:

- Novel drug delivery system
- Computer aided drug development
- Molecular pharmaceuticals
- Modern pharmaceuticals

4 M.Pharmacy in Quality Assurance Techniques

2 years full time

Gain the mastery of modern quality assurance techniques, where the art of analytical method and process validation takes center stage. By unlocking the keys to precise data analysis and interpretation, the program equips you with the essential skills to ensure meticulous quality control and assurance in the world of pharmaceuticals.

Areas covered:

- Modern quality assurance techniques
- Impurity profiling of drugs
- Statistical evaluation
- Research methodology
- Analytical method and process validation
- Quality management systems

Our Prominent Recruiters

Alard College of Business Studies

Welcome to Alard College of Business Studies (ACBS), where we ignite the flames of entrepreneurial spirit and nurture the trailblazers of tomorrow. Here, knowledge transcends boundaries as we sculpt visionary leaders who embrace change, challenge the norm, and thrive in the ever-evolving business landscape.

At ACBS, we don't just follow the beaten path; we carve new trails. Our dynamic curriculum, meticulously crafted in collaboration with industry stalwarts, propels students beyond textbooks and into the realm of experiential learning.

With a blend of cutting-edge theories and hands-on practicality, we equip our students with the arsenal of skills needed to conquer the corporate battlefield.

Our Programs

1 Bachelor of Business Administration (BBA)

3 years full time

Redefine the future of business through immersive internships, real-world case studies, and industry collaborations with this 3-year program. Sharpen your analytical thinking, decision-making prowess, and effective communication skills, positioning yourself as a sought-after professional ready to make an immediate impact in the corporate realm.

Our Programs

2 Bachelor of Business Administration (Computer Applications) (BBA CA)

3 years full time

Explore the dynamic intersection of business strategies and computer applications with this 3-year program. Equip yourself with the expertise to drive digital transformations and revolutionize the way organizations thrive in the digital age.
